

Somali Language and culture class

At the Resource centre, Southall

A great number of the Somali youth have expressed their dissatisfaction with their poor Somali language and lack of their knowledge regarding the Somali culture. Many would have felt more confident and proud of their cultural background if they spoke their mother language fluently. For that reason, Somali Youth Helpline has initiated a Somali language class where young Somali people would learn to read, write and speak the language confidently as well as gain knowledge of the Somali history and culture. The three hour session will take place **on Saturdays 5-8pm** at the Resource Centre in Southall.

A small administration fee applies at £5 per hour. Only two hours will be charged and the third hour will be given as a concession. All the Somali language class participants will enjoy a free (healthy eating) meal at the end of the class!
